3. Where a Party detains at a port of entry, goods originating in another Party due to a perceived failure to comply with a technical regulation, it shall immediately notify the importer of the reasons for the detention.
4. The Parties shall exchange names and addresses of contact points with expertise on technical regulations in order to facilitate communication and the exchange of information.
5. 2. Before a Party initiates an investigation to determine the existence, degree and effect of any alleged subsidy in another Party, as provided for in Article 11 of the WTO Agreement on Subsidies and Countervailing Measures, the Party considering initiating an investigation shall notify in writing the Party whose goods are subject to investigation and allow for a 45 day period with a view to finding a mutually acceptable solution. Consultations shall take place in the Joint Committee if any Party so requests within 20 days from the receipt of the notification.
3. Chapter 12 shall only apply to paragraph 2.

ARTICLE 2.15

Anti-dumping

1. The rights and obligations relating to anti-dumping measures shall be governed by Article VI of the GATT 1994 and the WTO Agreement on Implementation of Article VI of the GATT 1994 (hereinafter referred to as “the WTO Anti-dumping Agreement”), subject to the provisions below.
2. When a Party receives a properly documented application and before initiating an investigation under the WTO Anti-dumping Agreement, the Party shall notify in writing to the other Party whose goods are allegedly being dumped and allow a 20-day period for consultation with a view of trying to find a mutually acceptable solution. If a solution cannot be reached, each Party retains its rights and obligations under Article VI of the GATT 1994 and the WTO Anti-dumping Agreement.
3. Should a Party decide to impose an anti-dumping duty, the amount of such duty shall not exceed the margin of dumping, but it shall be less than the margin of dumping if such lesser duty would be adequate to remove the injury to the domestic industry.

4. Anti-dumping measures may not be applied by a Party where, on the basis of the information made available during the investigation, it is concluded that it would not be in the public interest to apply such measures.

5. Any anti-dumping measure applied against imports of a Party, shall be terminated without exception on a date not later than five years from its imposition. After the termination, a new investigation procedure can be started against the imports of a Party.

6. Five years after the date of entry into force of this Agreement, the Joint Committee shall review this Article in order to determine whether its content is necessary considering the policy objectives of the Parties.

7. Chapter 12 shall only apply to paragraphs 2 to 5.

ARTICLE 2.16

Global Safeguard Measures

1. The rights and obligations of the Parties in respect of global safeguards shall be governed by Article XIX of the GATT 1994 and the WTO Agreement on Safeguards.

2. In taking measures according to paragraph 1, a Party shall exclude imports of an originating product from one or several Parties if such imports do not in and of themselves cause or threaten to cause serious injury. The Party taking the measure shall demonstrate that such exclusion is in accordance with the jurisprudence of the World Trade Organisation (hereinafter referred to "WTO").

3. No Party may apply, with respect to the same product, at the same time:

(a) a bilateral safeguard measure; and

(b) a measure under Article XIX of the GATT 1994 and the WTO Agreement on Safeguards.

4. Chapter 12 shall only apply to paragraphs 2 and 3.

ARTICLE 2.17

Bilateral Safeguard Measures

1. Where, as a result of the reduction or elimination of a customs duty under this Agreement, any product originating in a Party is being imported into the territory of another Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause² of serious

² Substantial cause means a cause which is important and not less than any other cause.

injury or threat thereof to the domestic industry of like or directly competitive products in the territory of the importing Party, the importing Party may take bilateral safeguard measures to the minimum extent necessary to remedy or prevent the injury, subject to the provisions of paragraphs 2 to 9.

2. Bilateral safeguard measures shall only be taken upon clear evidence that increased imports have caused or are threatening to cause serious injury pursuant to an investigation in accordance with the procedures laid down in the WTO Agreement on Safeguards.

3. The Party intending to take or extend a bilateral safeguard measure under this Article shall immediately, and in any case before taking a measure, notify the other Parties. The notification shall contain all pertinent information, including evidence of serious injury or threat thereof caused by increased imports, a precise description of the product concerned, and the proposed measure, as well as the proposed date of introduction, expected duration and timetable for the progressive removal of the measure. A Party that may be affected by the bilateral safeguard measure shall be offered compensation in the form of substantially equivalent trade liberalisation in relation to the imports from any such Party.

4. If the conditions set out in paragraph 1 are met, the importing Party may take measures consisting in:

- (a) suspending the further reduction of any rate of customs duty provided for under this Agreement for the product; or
- (b) increasing the rate of customs duty for the product to a level not to exceed the lesser of:
 - (i) the Most-Favoured-Nation (hereinafter referred to as “MFN”) rate of duty applied at the time the action is taken; or
 - (ii) the MFN rate of duty applied on the day immediately preceding the date of the entry into force of this Agreement.

5. Bilateral safeguard measures shall only be taken during the transition period which shall be five years from the date of entry into force of this Agreement. Where the liberalisation process lasts five or more years, the transition period means the tariff elimination period for the goods according to the Party’s schedule of tariff commitments in Annexes IV, V and IX to XIV plus two years. Bilateral safeguard measures shall only be taken for a period not exceeding two years. In very exceptional circumstances, measures may be taken up to a total maximum period of four years. No bilateral safeguard measures shall be applied to the import of a product, which has previously been subject to such a measure.

6. The Joint Committee shall, within 30 days from the date of notification, examine the information provided under paragraph 3 in order to facilitate a mutually acceptable resolution of the matter. In the absence of such resolution, the importing Party may adopt a bilateral safeguard measure pursuant to paragraph 4 to remedy the problem, and, in the absence of mutually agreed compensation, the Party against whose product the

bilateral safeguard measure is taken may take compensatory action. The bilateral safeguard measure and the compensatory action shall be immediately notified to the other Parties. In the selection of the bilateral safeguard measure and the compensatory action, priority must be given to the measure which least disturbs the functioning of this Agreement. The Party taking compensatory action shall apply the measure only for the minimum period necessary to achieve the substantially equivalent trade effects and in any event, only while the bilateral safeguard measure under paragraph 4 is being applied.

7. Upon the termination of the bilateral safeguard measure, the rate of customs duty shall be the rate which would have been in effect but for the measure.

8. In critical circumstances, where delay would cause damage which would be difficult to repair, a Party may take a provisional bilateral safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The Party intending to take such a measure shall immediately notify the other Parties thereof. Within 30 days of the date of the notification, the pertinent procedures set out in paragraphs 2 to 6, including for compensatory action shall be initiated. Any mutually agreed compensation and any compensatory action shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

9. Any provisional bilateral safeguard measure shall be terminated within 200 days at the latest. The period of application of any such provisional bilateral safeguard measure shall be counted as part of the duration, and any extension thereof, of the bilateral safeguard measure, set out in paragraphs 4 and 5. Any tariff increases shall be promptly refunded if the investigation described in paragraph 2 does not result in a finding that the conditions of paragraph 1 are met.

10. For the purposes of this Article, the definitions established in Article 4.1 of the WTO Agreement on Safeguards shall apply.

ARTICLE 2.18

General Exceptions

With respect to the rights and obligations of the Parties concerning general exceptions, Article XX of the GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

ARTICLE 2.19

Security Exceptions

With respect to the rights and obligations of the Parties concerning security exceptions, Article XXI of the GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. A Party in serious balance of payments difficulties, or under imminent threat thereof, may, in accordance with the conditions established under the GATT 1994 and the WTO Understanding on the Balance-of-Payments Provisions of the GATT 1994, adopt trade restrictive measures, which shall be of limited duration and non-discriminatory, and may not go beyond what is necessary to remedy the balance of payments situation.

2. Should a Party adopt, maintain, introduce or re-introduce export subsidies on a product subject to a tariff concession in accordance with Article 3.2, the other Party may increase the rate of duty on such imports to the applied MFN tariff duty rate. The Party increasing its rate of duty shall notify the other Party within 30 days.

Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.⁵
3. Where authorisation is required by a Party for the supply of a service, the competent authorities of that Party shall, within a reasonable period of time after an application considered complete under that Party's domestic laws and regulations has been submitted, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of that Party shall provide, without undue delay, information concerning the status of the application.

⁵ The provisions of this paragraph shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. Each Party shall ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures are based on objective and transparent criteria, such as competence and the ability to supply the service.

5. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures do not constitute unnecessary barriers to trade in services, the Joint Committee shall take a decision aiming at incorporating into this Agreement any disciplines developed in the WTO in accordance with paragraph 4 of Article VI of the GATS. The Parties may also, jointly or bilaterally, decide to develop further disciplines.

6. (a) In sectors in which a Party has undertaken specific commitments, pending the entry into force of a decision incorporating WTO disciplines for these sectors pursuant to paragraph 5, and, if agreed between Parties, disciplines developed jointly or bilaterally under this Agreement pursuant to paragraph 5, the Party shall not apply qualification requirements and procedures, technical standards and licensing requirements and procedures that nullify or impair such specific commitments in a manner which is:

(i) more burdensome than necessary to ensure the quality of the service; or

(ii) in the case of licensing procedures, not in itself a restriction on the supply of the service.

(b) In determining whether a Party is in conformity with the obligation under subparagraph (a), account shall be taken of international standards of relevant international organisations⁶ applied by that Party.

7. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of any other Party.

ARTICLE 4.9

Recognition

1. For the purpose of the fulfilment of its relevant standards or criteria for the authorisation, licensing or certification of service suppliers, each Party may recognise the education or experience obtained, requirements met, or licences or certifications granted in that other Party. Such recognition may be based upon an agreement or arrangement with that other Party, or otherwise be accorded autonomously.

⁶ The term “relevant international organisations” refers to international bodies whose membership is open to the relevant bodies of at least all Parties.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-party, that Party shall afford another Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that the education or experience obtained, requirements met, or licences or certifications granted, in the territory of that other Party should also be recognised.

3. Any such agreement or arrangement or autonomous recognition shall be in conformity with the relevant provisions of the WTO Agreement, in particular paragraph 3 of Article VII of the GATS.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorises or establishes a small number of service suppliers; and

The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The consultations shall be held within three months after the requesting Party made its request. In the consultations, the Parties shall aim to ensure that a general level of mutually advantageous commitments no less favourable to trade than that provided for in the Schedule of Specific Commitments prior to such consultations is maintained. Modifications of Schedules are subject to the procedures set out in Articles 11.1 and 13.3.

ARTICLE 4.20

Where an entity rejects a supplier's request for participation or ceases to recognise a supplier as qualified, the entity shall, on request of the supplier, promptly provide it with a written explanation of the reasons for its decision.
4. A procuring entity shall recognise as qualified suppliers any domestic suppliers and any suppliers of the other Party that meet the conditions for participation in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

ARTICLE 7.13

List of Suppliers

1. A procuring entity may maintain a list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion in the list is published annually in the appropriate medium listed in Appendix 7 to Annex XX. The procuring entities shall also promptly reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

ARTICLE 7.15

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade among the Parties.
2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:
 - (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, where such exist or otherwise, on national technical regulations, recognised national standards or building codes.

Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.
4. A procuring entity shall not prescribe any technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.
5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption

of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

ARTICLE 7.16

Modifications of the Tender Documentation and Technical Specifications

Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in a notice or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or reissued notice or tender documentation:

- (a) to all suppliers that are participating at the time of the modification, amendment or reissuance, if known, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow such suppliers to modify and resubmit amended tenders, as appropriate.

ARTICLE 7.17

Time-Periods

A procuring entity shall, consistent with its own reasonable needs, provide suppliers sufficient time to prepare and submit requests for participation and responsive tenders, taking into account in particular the nature and complexity of the procurement. Each Party shall apply time-periods according to the conditions specified in Appendix 8 to Annex XX. Such time-periods, including any extensions, shall be the same for all interested or participating suppliers.

ARTICLE 7.18

Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of any other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 7.10, 7.11, 7.12, 7.13, 7.14, 7.15, 7.16, 7.17, 7.19, 7.20, 7.21 and 7.22 only under the following circumstances:

- (a) where:
 - (i) no tenders were submitted, or no supplier requested participation;

- (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
- (iii) no suppliers satisfied the conditions for participation; or
- (iv) the tenders submitted have been collusive;

provided that the requirements of the tender documentation are not substantially modified;

- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods and services that were not included in the initial procurement where a change of supplier for such additional goods and services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs to the procuring entity;
- (d) in so far as strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using an open or selective tendering procedure;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;

- (g) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organised in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

2. A procuring entity shall maintain records or prepare a report in writing on each contract awarded under paragraph 1. The record or the report shall include the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

ARTICLE 7.19

Electronic Auctions

1. Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

ARTICLE 7.20

Negotiations

1. A Party may provide for its procuring entities to conduct negotiations:

- (a) where the entity has indicated such intent in the notice of intended procurement pursuant to Article 7.10; or
- (b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice or tender documentation.

2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice or tender documentation; and
 - (b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

ARTICLE 7.21

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. Where a procuring entity provides suppliers with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the entity shall provide the same opportunity to all participating suppliers.

ARTICLE 7.22

Awarding of Contracts

1. To be considered for award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
2. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.
3. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
4. A procuring entity shall not use option clauses, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations of this Chapter.

ARTICLE 7.23

Transparency of Procurement Information

1. A procuring entity shall promptly inform participating suppliers of its contract award decisions and, on request, shall do so in writing. Subject to Article 7.24, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.
2. No later than 72 days after the award of each contract, a procuring entity shall publish in a paper or electronic medium listed in Appendix 7 to Annex XX, a notice that includes at least the following information about the contract:
 - (a) a description of the goods or services procured;
 - (b) the name and address of the procuring entity;
 - (c) the name of the successful supplier;
 - (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
 - (e) the date of award; and
 - (f) the type of procurement method used, and in cases where limited tendering was used pursuant to Article 7.18, an indication of the circumstances justifying the procedure used.
3. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time.
4. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports provided for in Article 7.18, and the data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

ARTICLE 7.24

Disclosure of Information

1. On request of any other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender.
2. In cases where disclosure of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any

supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

3. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any supplier information that might prejudice fair competition between suppliers.

4. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information under this Chapter where disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

ARTICLE 7.25

Domestic Review Procedures for Supplier Challenges

1. Each Party shall provide a timely, effective, transparent and non-discriminatory administrative or judicial review procedure according to the due process principle through which a supplier may challenge where the supplier does not have a right to challenge directly a breach of this Chapter under the domestic law of a Party, a failure to comply with a Party's measures implementing this Chapter; arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. Each Party may foresee in its domestic legislation that, in the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the procuring entity and the supplier are encouraged to seek resolution of the complaint through consultations.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an

impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall either have its decisions subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;
- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) where a review body has determined that there has been a breach of this Chapter or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

ARTICLE 7.26

Modifications and Rectifications to Coverage

1. A Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedules in Annex XX, provided that it notifies the other Parties in writing and no other Party objects in writing within 45 days following the date of the circulation of the notification. A Party that makes such a

rectification or minor amendment need not provide compensatory adjustments to the other Parties.

2. A Party may otherwise modify its coverage under this Chapter provided that:
 - (a) it notifies the other Parties in writing and offers at the same time acceptable compensatory adjustments to maintain a level of coverage comparable to that existing prior to the modification, except where provided for in paragraph 3; and
 - (b) no Party objects in writing within 45 days following the date of the circulation of the notification.

3. A Party need not provide compensatory adjustments when the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence. When a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

ARTICLE 7.27

Cooperation

1. The Parties recognise the importance of cooperation with a view to achieving a better understanding of their respective government procurement systems, as well as a better access to their respective markets, in particular for small business suppliers.

2. According to Chapter 10, the Parties shall endeavour to cooperate in matters such as:
 - (a) development and use of electronic communications in government procurement systems; and
 - (b) exchange of experiences and information, such as regulatory frameworks, best practices and statistics.

ARTICLE 7.28

Further Negotiations

In case a Party offers a third party, in the future, additional advantages with respect to its respective government procurement market access coverage agreed under this Chapter, it shall agree, upon request of any other Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

CHAPTER 8
COMPETITION

ARTICLE 8.1

Anti-competitive Practices

1. The following practices of undertakings are incompatible with the proper functioning of this Agreement in so far as they may affect trade between the Parties:

- (a) agreements between undertakings, decisions by associations of undertakings and concerted practices between enterprises which have as their object or effect the prevention, restriction or distortion of competition;
- (b) abuse by one or more undertakings of a dominant position¹¹ in the territory of a Party as a whole or in a substantial part thereof.

2. Subject to their domestic laws, the provisions of paragraph 1 shall also apply to the activities of public undertakings, and undertakings to which the Parties grant special or exclusive rights, in so far as the application of these provisions does not obstruct the performance, in law or in fact, of the particular public tasks assigned to them.

3. Rights and obligations under this Chapter shall only apply between the Parties.

4. In order to fulfil the obligations of this Chapter, if at the moment of entry into force of this Agreement a Party has not yet adopted competition legislation or designated a competent authority, it shall do so within a period of three years.

ARTICLE 8.2

Cooperation

1. Subject to their domestic laws, the Parties involved shall cooperate in their dealings with anticompetitive practices as outlined in Article 8.1, with the aim of putting an end to such practices.

2. Cooperation may include the exchange of pertinent information that is available to the Parties. No Party shall be required to disclose information that is confidential according to its laws.

¹¹ The term "dominant position" may be referred to as an undertaking able to operate independently from its competitors or customers, or alternatively as a substantial market power or as a notable market participation, as specified in the Central American States' respective competition laws.

ARTICLE 8.3

Consultations

To foster understanding between the Parties or to address any matter arising under this Chapter, a Party may request consultations within the Joint Committee. This request shall indicate the reasons for the consultations. Consultations shall be held promptly with a view to reaching a conclusion consistent with this Chapter. 11. The arbitration panel shall establish its working schedule allowing the parties to the dispute adequate time to comply with all steps of the proceedings. The working schedule shall establish precise dates and time periods for the submission of all relevant communications, submissions and other documents as well as for any hearings. The arbitration panel may modify its working schedule and promptly notify the parties to the dispute of any such modifications.

12. Notifications shall be submitted as expeditiously as possible to the addressee through diplomatic channels. A copy should be submitted simultaneously to any relevant offices designated and notified by the parties to the dispute.

13. The arbitration panel may rule on its own jurisdiction.

ARTICLE 12.6

Panel Reports

1. The arbitration panel shall normally submit an initial report containing its findings and rulings to the parties to the dispute not later than 90 days from the date of establishment of the arbitration panel. A party to the dispute may submit written comments to the arbitration panel on its initial report within 14 days from the date of receipt of the report. The arbitration panel shall normally present to the parties to the dispute a final report within 30 days from the date of receipt of the initial report.

2. The final report, as well as any report under Articles 12.8 and 12.9, shall be communicated to the parties to the dispute. The reports referred to in this paragraph shall be made public, unless the parties to the dispute decide otherwise.

3. Any ruling of the arbitration panel under any provision of this Chapter shall be final and binding upon the parties to the dispute.

ARTICLE 12.7

Suspension or Termination of Arbitration Panel Proceedings

1. Where the parties to the dispute agree, an arbitration panel may suspend its work at any time for a period not exceeding 12 months. If the work of an arbitration panel has been suspended for more than 12 months, the arbitration panel's authority for considering the dispute shall lapse, unless the parties to the dispute agree otherwise.

2. A complaining Party may withdraw its complaint at any time before the final report has been issued. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same issue at a later point in time.

3. The parties to the dispute may agree at any time to terminate the proceedings of an arbitration panel established under this Agreement by jointly notifying in writing the chairperson of that arbitration panel.

4. An arbitration panel may, at any stage of the proceedings prior to release of the final report, propose that the parties to the dispute seek to settle the dispute amicably.

ARTICLE 12.8

Implementation of the Final Report

1. The Party complained against shall promptly comply with the ruling in the final report. If it is impracticable to comply immediately, the parties to the dispute shall endeavour to agree on a reasonable period of time to do so. In the absence of such agreement within 30 days from the date of the issuance of the final report, either party to the dispute may request the original arbitration panel to determine the length of the reasonable period of time, in light of the particular circumstances of the case. The ruling of the arbitration panel shall normally be given within 40 days from the date of receipt of that request.

2. The Party complained against shall notify the other party to the dispute of the measure adopted in order to comply with the ruling in the final report, as well as provide a detailed description of how the measure ensures compliance sufficient to allow the other party to the dispute to assess the measure.

3. In case of disagreement as to the existence of a measure complying with the ruling in the final report or to the consistency of that measure with the ruling, such disagreement shall be decided by the same arbitration panel upon the request of either party to the dispute before compensation can be sought or suspension of benefits can be applied in accordance with Article 12.9. The ruling of the arbitration panel shall normally be rendered within 60 days from the date of receipt of the request.

ARTICLE 12.9

Compensation and Suspension of Benefits

1. If the Party complained against does not comply with a ruling of the arbitration panel referred to in Article 12.8, or notifies the complaining Party that it does not intend to comply with the final report that Party shall, if so requested by the complaining Party, enter into consultations with a view to agreeing on mutually acceptable compensation. If no such agreement has been reached within 20 days from receipt of the request, the complaining Party shall be entitled to suspend the application of benefits granted under this Agreement but only equivalent to those affected by the measure or matter that the arbitration panel has found to be inconsistent with this Agreement.

2. In considering what benefits to suspend, the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure or matter that the arbitration panel has found to be inconsistent with this Agreement. The complaining Party that considers it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.

3. The complaining Party shall notify the Party complained against of the benefits which it intends to suspend, the grounds for such suspension and when suspension will commence, no later than 30 days before the date on which the suspension is due to take effect. Within 15 days from receipt of that notification, the Party complained against may request the original arbitration panel to rule on whether the benefits which the complaining Party intends to suspend are equivalent to those affected by the measure or matter found to be inconsistent with this Agreement, and whether the proposed suspension is in accordance with paragraphs 1 and 2. The ruling of the arbitration panel shall be given within 45 days from receipt of that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.

4. Compensation and suspension of benefits shall be temporary measures and shall only be applied by the complaining Party until the measure or matter found to be inconsistent with this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the parties to the dispute have resolved the dispute otherwise.

5. At the request of a party to the dispute, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of benefits and, in light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 30 days from receipt of that request.

ARTICLE 12.10

Other Provisions

1. Whenever possible, the arbitration panel referred to in Articles 12.8 and 12.9 shall comprise the same arbitrators who issued the final report. If a member of the original arbitration panel is unavailable, the appointment of a replacement arbitrator shall be conducted in accordance with the selection procedure for the original arbitrator.

2. Any time period mentioned in this Chapter may be modified by mutual agreement of the parties to the dispute.

3. When an arbitration panel considers that it cannot comply with the timeframe imposed on it under this Chapter, it shall inform the parties to the dispute in writing of the reasons of the delay together with an estimate of the additional time required. Any additional time required should not exceed 30 days.

[i] Guatemala shall continue to apply the charge to the imports established in the Cooperation Fund to the National Deciduous Fruticulture Law, Decree No.15-2007 of the Congress of the Republic of Guatemala and its reforms.

Section 2 - Concessions by Iceland

The following terms and conditions shall apply to the tariff concessions granted by Iceland on agricultural products in Table 1 to this Section.

1. Iceland shall apply for Guatemala the customs duties as set out in column 5.
2. For originating products classified under the tariff lines identified as “PAP” (Processed Agricultural Products) in column 4, the following provisions shall apply:
 - (a) In order to take account of differences in the cost of the agricultural raw materials incorporated into products identified as processed agricultural products (“PAP”), the Agreement does not preclude the levying, upon import, of a duty, unless otherwise specified in column 5 in Table 1 to this Section.
 - (b) Duties levied by the Parties upon import shall be based on, but not exceed, the differences between the domestic price and the world market price of the agricultural raw materials incorporated into the products concerned.
 - (c) Subject to the provisions laid down in paragraph 2 (a) and (b), Iceland shall accord for products identified as PAP, originating in Guatemala, treatment no less favourable than that accorded to the European Union.
 - (d) Iceland shall publish the applicable import duties for processed agricultural products on the web site of the EFTA Secretariat.

Section 2 - Concessions by Norway

The following terms and conditions shall apply to the tariff concessions granted by Norway on agricultural products in Table 1 to this Section.

1. Norway shall apply for Guatemala the customs duties as set out in columns 5a or 5b.
2. For originating products classified under the tariff lines identified as “PAP” (Processed Agricultural Products) in column 6, the following provisions shall apply:
 - (a) In order to take account of differences in the cost of the agricultural raw materials incorporated into products identified as processed agricultural products (“PAP”), the Agreement does not preclude the levying, upon import, of a duty, unless otherwise specified in columns 5a or 5b in Table 1 to this Section.
 - (b) Duties levied by the Parties upon import shall be based on, but not exceed, the differences between the domestic price and the world market price of the agricultural raw materials incorporated into the products concerned.
 - (c) Subject to the provisions laid down in paragraph 2 (a) and (b), Norway shall accord for products identified as PAP, originating in Guatemala, treatment no less favourable than that accorded to the European Union.
 - (d) Norway shall publish the applicable import duties for processed agricultural products on the web site of the EFTA Secretariat.

- i Guatemala shall continue to apply the charge to the imports established in the Cooperation Fund to the National Deciduous Fruticulture Law, Decree No.15-2007 of the Congress of the Republic of Guatemala and its reforms.

Section 2 - Concessions by Switzerland

The following terms and conditions shall apply to the tariff concessions granted by Switzerland on agricultural products in Table 1 to this Section.

1. Switzerland shall apply for Guatemala the customs duties as set out in column 3 or 4.
2. For originating products classified under the tariff lines identified as “PAP” (Processed Agricultural Products) in column 6, the following provisions shall apply:
 - (a) In order to take account of differences in the cost of the agricultural raw materials incorporated into products identified as processed agricultural products (“PAP”), the Agreement does not preclude the levying, upon import, of a duty, unless otherwise specified in column 3 in Table 1 to this Section.
 - (b) Duties levied by the Parties upon import shall be based on, but not exceed, the differences between the domestic price and the world market price of the agricultural raw materials incorporated into the products concerned.
 - (c) Subject to the provisions laid down in paragraph 2 (a) and (b), Switzerland shall accord for products identified as PAP, originating in Guatemala, treatment no less favorable than that accorded to the European Union.
 - (d) Switzerland shall publish the applicable import duties for processed agricultural products on the Website of the EFTA Secretariat.

ATTACHMENT I

ADDITIONAL COMMITMENTS ON TELECOMMUNICATIONS

Article 1

Definitions

For interpretation and application effects of this Attachment, the technical terms on the subject of telecommunications will have the meanings recognised by the national law, or failing that by the provisions of the International Telecommunication Union and interpreted by the Superintendency of Telecommunications under the proper sense of the words within their overall context.

Article 2

Competitive safeguards

1. Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.
2. The anti-competitive practices referred to above shall include, in particular:
 - (a) engaging in anti-competitive cross-subsidisation;
 - (b) using information obtained from competitors with anti-competitive results;
and
 - (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

Article 3

Interconnection

1. This article applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.
2. With the limits to which market access is permitted, interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
 - (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and rates that are transparent, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be supplied; and
 - (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.
3. The procedures applicable for interconnection to a major supplier will be made publicly available.
4. The Party shall provide its telecommunications regulatory body the authority to require public telecommunications suppliers to file their interconnection contracts.
5. If, within a period of 40 (working) days, the parties have not reached agreement on access to essential resources, the “*Superintendencia de Telecomunicaciones*” shall issue a ruling under the procedure specified in the “*Ley General de Telecomunicaciones*” (General Telecommunications Law).
6. Only an appeal for review may be lodged against a decision by the Superintendency of Telecommunications, and it shall be settled by the Ministry of Communications, Transport and Public Works. An administrative appeal shall lie against any decision by the Ministry of Communications, Transport and Public Works resulting from an appeal for review.

Article 4

Universal service

Guatemala has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by Guatemala.

Article 5

Public availability of criteria for granting a usufruct’s title

1. Where a usufruct’s title is required, the following will be made publicly available:

- (a) all the criteria for granting a usufruct's title and the period of time normally required to reach a decision concerning an application for a usufruct's title; and
 - (b) the terms and conditions of usufruct's titles.
2. The reasons for the denial of a usufruct's title will be made known to the applicant upon request.

Article 6

Independent regulators

1. The regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. The decisions of and the procedures used by the regulatory body shall be impartial with respect to all market participants.
2. Guatemala shall ensure that suppliers of an EFTA State affected by the decision of the regulatory body of Guatemala have recourse to an administrative body or a court independent of any supplier, in accordance with its laws and regulations.

Article 7

Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available.¹

¹ It is understood that this Article does not require to make publicly available detailed identification of frequencies allocated for specific government uses.
